Value Addition Course — VAC: Financial Literacy · Unit IV: Personal Tax

## SOLUTIONS TO PREVIOUS YEARS' QUESTION PAPERS

**Tax Year 2026-27**

*Income-tax Act, 2025 read with the Finance Act, 2026 · solved under both the new (default) and the old (optional) tax regimes*

Tax Solutions by **Advocate Dr. S. B. Rathore** (Tax Doctor) — M.Com., M.Phil., LL.B., Ph.D. · Associate Professor of Commerce (Oct-1977 to Dec-2019), Shyam Lal College (University of Delhi), Delhi-110032 · 9811116835 · taxclasses.in

### ABOUT THIS BOOKLET

This booklet has been prepared by Artificial Intelligence — Claude Opus 5.0 Max (Anthropic) — under the guidance and supervision of Advocate Dr. S. B. Rathore, from the bare text of the Income-tax Act, 2025 and the Income-tax Rules, 2026 as downloaded from [incometaxindia.gov.in](http://incometaxindia.gov.in).

**Date:** 23-08-26 (Original)

**Updated on:** \_\_\_\_\_

### SUGGESTIONS AND CORRECTIONS ARE WELCOME

This is the first year in which this paper is being taught under the Income-tax Act, 2025, and the first edition of any material is bound to be capable of improvement. If you notice a discrepancy — a section number, a figure, a rate, a date — or if you have a suggestion on the presentation, the illustrations, or anything else that would make the material easier for a student, please write to me. Teachers of other colleges are equally welcome to send their comments.

| <b>Unit II — Banking and Digital Payment (4 weeks)</b>                    | <ul style="list-style-type: none"><li>• Banking products and services</li><li>• Digitisation of financial transactions: debit cards (ATM cards) and credit cards, net banking and UPI, digital wallets</li><li>• Security and precautions against Ponzi schemes and online frauds</li></ul> |
| <b>Unit III — Investment Planning and Management (4 weeks)</b>            | <ul style="list-style-type: none"><li>• Investment opportunity and financial products</li><li>• Insurance planning: life and non-life, including medical insurance schemes</li></ul>                                                                                                        |
| <b>Unit IV — Personal Tax (4 weeks)</b><br><i>covered in this booklet</i> | <ul style="list-style-type: none"><li>• Introduction to basic tax structure in India for personal taxation</li><li>• Aspects of personal tax planning</li><li>• Exemptions and deductions for individuals</li><li>• e-filing</li></ul>                                                      |

Note: Some of the theoretical concepts would be dealt with during practice hours.

### Practical component (15 weeks)

- Regular class activities to enhance students' understanding of topics and the application of concepts. The case study method may be followed as a teaching pedagogy.
- Numerical questions pertaining to each unit, wherever applicable, should be practised.
- For the second unit, students may be assigned a project wherein they log on to the websites of various banks and conduct an in-depth analysis and comparison of financial products offered.
- For Unit III, a project related to building a dummy portfolio of stocks and tracking their returns may be given.
- An investment budget may be given to the students to select investment options that maximise the return and minimise the tax implications.
- **For the last unit, students may also file a dummy income-tax return to get hands-on experience with e-filing.**
- Students may conduct a financial literacy survey among at least 25 respondents to measure the level of financial literacy and share the findings in the form of a report.
- Any other practical / practice as decided from time to time.

### Essential / recommended readings

- *Introduction to Financial Planning* (4th edn., 2017) — Indian Institute of Banking & Finance
- Sinha, Madhu. *Financial Planning: A Ready Reckoner*, July 2017, McGraw Hill

### Suggested readings

- Halan, Monika. *Let's Talk Money: You've Worked Hard for It, Now Make It Work for You*, July 2018, Harper Business
- Pandit, Amar. *The Only Financial Planning Book that You Will Ever Need*, Network 18 Publications Ltd.

**Examination scheme and mode:** subject to directions from the Examination Branch / University of Delhi from time to time.

## RATES AND LIMITS AT A GLANCE — TAX YEAR 2026-27

Income-tax Act, 2025 (Act 30 of 2025), effective 1<sup>st</sup> April 2026, read with the Finance Act, 2026. The rates below are unchanged from the immediately preceding year; what has changed for students is the statute, the terminology (*tax year* replaces *previous year* and *assessment year*) and the section numbering.

### New (default) regime — s. 202 [115BAC] — all individuals

| Total income              | Rate |
|---------------------------|------|
| Up to ₹ 4,00,000          | Nil  |
| ₹ 4,00,001 – ₹ 8,00,000   | 5%   |
| ₹ 8,00,001 – ₹ 12,00,000  | 10%  |
| ₹ 12,00,001 – ₹ 16,00,000 | 15%  |
| ₹ 16,00,001 – ₹ 20,00,000 | 20%  |
| ₹ 20,00,001 – ₹ 24,00,000 | 25%  |
| Above ₹ 24,00,000         | 30%  |

Applies to every individual irrespective of age. This is the **default** regime — the old regime must be opted for.

### Old (optional) regime — three categories

| Total income                                              | Rate      |
|-----------------------------------------------------------|-----------|
| <b>Individual below 60 years</b>                          |           |
| Up to ₹ 2,50,000 / ₹ 2,50,001–5,00,000                    | Nil / 5%  |
| ₹ 5,00,001 – ₹ 10,00,000 / above                          | 20% / 30% |
| <b>Resident senior citizen (60 – 79 years)</b>            |           |
| Up to ₹ 3,00,000 / ₹ 3,00,001–5,00,000                    | Nil / 5%  |
| ₹ 5,00,001 – ₹ 10,00,000 / above                          | 20% / 30% |
| <b>Resident super senior citizen (80 years and above)</b> |           |
| Up to ₹ 5,00,000                                          | Nil       |
| ₹ 5,00,001 – ₹ 10,00,000 / above                          | 20% / 30% |

### Key reliefs, deductions and additions — with the corresponding sections of both Acts

| Item                                                  | Section                               |                  | Old (optional) regime       | New (default) regime       |
|-------------------------------------------------------|---------------------------------------|------------------|-----------------------------|----------------------------|
|                                                       | Act, 1961                             | Act, 2025        |                             |                            |
| Standard deduction from salary                        | 16(ia)                                | 19(1), Sl. 2     | ₹ 50,000                    | ₹ 75,000                   |
| Rebate — total income ceiling                         | 87A                                   | 156              | ₹ 5,00,000                  | ₹ 12,00,000                |
| Rebate — maximum amount                               | 87A                                   | 156              | ₹ 12,500                    | ₹ 60,000                   |
| Marginal relief where income just exceeds the ceiling | 87A                                   | 156(2)(b)        | Not available               | Available                  |
| Life insurance, PF, PPF, ELSS, tuition fees, etc.     | 80C                                   | 123 + Sch. XV    | Available                   | Not available              |
| Health insurance premium                              | 80D                                   | 126              | Available                   | Not available              |
| Interest on deposits — savings / senior citizens      | 80TTA / 80TTB                         | 153              | Available                   | Not available              |
| Donations; interest on education loan                 | 80G; 80E                              | 133; 129         | Available                   | Not available              |
| Employer's contribution to pension scheme (NPS)       | 80CCD(2)                              | 124(2)           | Available                   | Available                  |
| Exemption for house rent allowance                    | 10(13A)                               | Sch. III, Sl. 11 | Available                   | Not available              |
| Deduction for professional tax                        | 16(iii)                               | 19(1), Sl. 1     | Available                   | Not available              |
| Health & Education Cess on tax plus surcharge         | Levied by the Finance Act, 2026       |                  | 4%                          | 4%                         |
| Surcharge — threshold and highest rate                | Finance Act, 2026, First Sch., Para F |                  | Above ₹ 50 lakh; up to 37%* | Above ₹ 50 lakh; up to 25% |
| Rounding off of tax payable                           | 288B                                  | 516              | Nearest ₹ 10                | Nearest ₹ 10               |

\*Surcharge slabs: 10% above ₹ 50 lakh, 15% above ₹ 1 crore, 25% above ₹ 2 crore, and 37% above ₹ 5 crore under the optional regime only. Marginal relief is available on surcharge in every case. None of the six questions in this set attracts surcharge.

## APPENDIX — SECTION NUMBERS UNDER THE INCOME-TAX ACT, 2025

From tax year 2026–27 the governing statute is the Income-tax Act, 2025, in which the provisions of the 1961 Act carry new numbers. The prescribed readings and common usage still name them by the old numbers, so students must be able to recognise both. In this booklet Questions 1 to 3 use the 1961 numbering and Questions 4 to 6 the 2025 numbering, deliberately.

| Provision                                        | Income-tax Act, 1961 | Income-tax Act, 2025         |
|--------------------------------------------------|----------------------|------------------------------|
| Standard deduction from salary                   | s. 16( <i>ia</i> )   | s. 19(1), Table Sl. No. 2    |
| Deduction for professional tax                   | s. 16( <i>iii</i> )  | s. 19(1), Table Sl. No. 1    |
| Exemption for house rent allowance               | s. 10(13A)           | Schedule III, Sl. No. 11     |
| Exemption for gratuity                           | s. 10(10)            | s. 19(1), Table Sl. Nos. 3–6 |
| Interest on borrowed capital — house property    | s. 24( <i>b</i> )    | s. 22(1)( <i>b</i> )         |
| LIP, PF, PPF, ELSS, tuition fees, etc.           | s. 80C               | s. 123 read with Sch. XV     |
| Contribution to pension scheme (NPS)             | s. 80CCD             | s. 124                       |
| Contribution to Agnipath Scheme                  | s. 80CCH             | s. 125                       |
| Health insurance premium                         | s. 80D               | s. 126                       |
| Interest on education loan                       | s. 80E               | s. 129                       |
| Donations to funds and charitable institutions   | s. 80G               | s. 133                       |
| Interest on deposits (savings / senior citizens) | s. 80TTA / 80TTB     | s. 153                       |
| Deduction for a person with disability           | s. 80U               | s. 154                       |
| Rebate for resident individuals                  | s. 87A               | s. 156                       |
| New (default) tax regime                         | s. 115BAC            | s. 202                       |
| Rounding off of total income and tax             | s. 288B              | s. 516                       |
| Due date for filing return of income             | s. 139(1)            | s. 263(1)                    |

### TERMINOLOGY UNDER THE NEW ACT

- ‘Previous year’ and ‘assessment year’ are replaced by a single expression — **tax year**. The year 1 April 2026 to 31 March 2027 is **tax year 2026–27**; the income of that year is assessed under that same label — there is no separate assessment year.
- Chapter VI-A deductions are now spread over Chapter VIII; the schedules to the new Act carry the lists that were earlier in the body of the sections.
- Rates of tax continue to be prescribed each year by the Finance Act — for tax year 2026–27, by the Finance Act, 2026 (Part I-B of the First Schedule for the optional regime, and s. 202 of the Act itself for the default regime).

### HOW TO USE THIS SET

- Every question has been **re-solved for tax year 2026-27**. The figures therefore differ from the answers circulated for earlier years wherever the default-regime slabs or the enhanced rebate apply — the old-regime figures are unchanged, since those rates have not been revised.
- Each question is solved under **both regimes side by side**, followed by a comparison strip showing which regime is beneficial. Remember that the new regime is now the **default**: the old regime applies only if the assessee opts for it.
- **Two numberings are used deliberately**. Questions 1 to 3 carry the familiar section numbers of the Income-tax Act, 1961; Questions 4 to 6 are worked wholly in the numbering of the Income-tax Act, 2025 (s. 19 standard deduction, s. 123 investments, s. 126 health insurance, s. 153 deposit interest, s. 156 rebate, s. 202 default regime). Students should be able to read both. The Appendix sets the two side by side.
- All amounts are in rupees. Tax payable is rounded off to the nearest ₹ 10.

## QUESTION 1

Odd Semester (Academic Year 2022-23) · Q. 4, Set-2

Ram, Shyam and Mohan are individuals resident in India. Ram is a **super senior citizen** (80 years or more), Shyam is a **senior citizen** (60 years or more but less than 80 years) and Mohan is **below 60 years** of age. The total (taxable) income of each of them for the tax year 2026-27 is ₹ 12,00,000. Compute the tax liability of each of them under the old tax rates regime and the new tax rates regime.

### Computation of tax liability — Old (optional) tax regime

| Particulars                                                            | Rate | Ram<br>super senior | Shyam<br>senior   | Mohan<br>non-senior |
|------------------------------------------------------------------------|------|---------------------|-------------------|---------------------|
| Basic exemption limit                                                  |      | ₹ 5,00,000          | ₹ 3,00,000        | ₹ 2,50,000          |
| Total (taxable) income                                                 |      | ₹ 12,00,000         | ₹ 12,00,000       | ₹ 12,00,000         |
| Exemption limit to ₹ 5,00,000                                          | 5%   | Nil                 | ₹ 10,000          | ₹ 12,500            |
| ₹ 5,00,001 to ₹ 10,00,000                                              | 20%  | ₹ 1,00,000          | ₹ 1,00,000        | ₹ 1,00,000          |
| Above ₹ 10,00,000                                                      | 30%  | ₹ 60,000            | ₹ 60,000          | ₹ 60,000            |
| <b>Tax before rebate</b>                                               |      | <b>₹ 1,60,000</b>   | <b>₹ 1,70,000</b> | <b>₹ 1,72,500</b>   |
| Less: Rebate u/s 87A (only if total income ≤ ₹ 5,00,000; max ₹ 12,500) |      | Not allowed         | Not allowed       | Not allowed         |
| <b>Tax after rebate</b>                                                |      | <b>₹ 1,60,000</b>   | <b>₹ 1,70,000</b> | <b>₹ 1,72,500</b>   |
| Add: Health & Education Cess                                           | 4%   | ₹ 6,400             | ₹ 6,800           | ₹ 6,900             |
| <b>Tax liability</b>                                                   |      | <b>₹ 1,66,400</b>   | <b>₹ 1,76,800</b> | <b>₹ 1,79,400</b>   |

### Computation of tax liability — New (default) tax regime u/s 115BAC

| Particulars                                                     | Rate | Ram<br>super senior | Shyam<br>senior | Mohan<br>non-senior |
|-----------------------------------------------------------------|------|---------------------|-----------------|---------------------|
| Basic exemption limit                                           |      | ₹ 4,00,000          | ₹ 4,00,000      | ₹ 4,00,000          |
| Total (taxable) income                                          |      | ₹ 12,00,000         | ₹ 12,00,000     | ₹ 12,00,000         |
| ₹ 4,00,001 to ₹ 8,00,000                                        | 5%   | ₹ 20,000            | ₹ 20,000        | ₹ 20,000            |
| ₹ 8,00,001 to ₹ 12,00,000                                       | 10%  | ₹ 40,000            | ₹ 40,000        | ₹ 40,000            |
| <b>Tax before rebate</b>                                        |      | <b>₹ 60,000</b>     | <b>₹ 60,000</b> | <b>₹ 60,000</b>     |
| Less: Rebate u/s 87A (total income ≤ ₹ 12,00,000; max ₹ 60,000) |      | ₹ (60,000)          | ₹ (60,000)      | ₹ (60,000)          |
| <b>Tax after rebate</b>                                         |      | <b>Nil</b>          | <b>Nil</b>      | <b>Nil</b>          |
| Add: Health & Education Cess                                    | 4%   | Nil                 | Nil             | Nil                 |
| <b>Tax liability</b>                                            |      | <b>NIL</b>          | <b>NIL</b>      | <b>NIL</b>          |

### Comparison — which regime is beneficial?

| Assessee           | Old (optional) regime | New (default) regime | Saving under default regime |
|--------------------|-----------------------|----------------------|-----------------------------|
| Ram — super senior | ₹ 1,66,400            | <b>NIL</b>           | ₹ 1,66,400                  |
| Shyam — senior     | ₹ 1,76,800            | <b>NIL</b>           | ₹ 1,76,800                  |
| Mohan — non-senior | ₹ 1,79,400            | <b>NIL</b>           | ₹ 1,79,400                  |

#### POINTS TO NOTE

- Age is irrelevant under the default regime.** The basic exemption limit is ₹ 4,00,000 for every individual — the higher limits of ₹ 3,00,000 and ₹ 5,00,000 for senior and super senior citizens exist only under the old regime.
- Total income here is *exactly* ₹ 12,00,000, so the enhanced rebate u/s 87A of ₹ 60,000 exactly wipes out the tax of ₹ 60,000. Tax liability is **nil** for all three. Had the income been even ₹ 1 more, the rebate would have been withdrawn and marginal relief would have applied.
- Cess is charged on tax *after* rebate. Since the tax after rebate is nil, no cess arises.
- All three assesseees should therefore remain in the default regime.

## QUESTION 2

Even Semester (Academic Year 2023-24) · Q. 4, Set-1

Compute the tax liability of **Ramesh** (aged 50 years), **Suresh** (aged 65 years) and **Lakshmi** (aged 82 years), all resident individuals, whose total (taxable) income for the tax year 2026-27 is ₹ 20,00,000 each, under the old tax rates regime and the new tax rates regime.

### Computation of tax liability — Old (optional) tax regime

| Particulars                                            | Rate | Ramesh<br>50 years | Suresh<br>65 years | Lakshmi<br>82 years |
|--------------------------------------------------------|------|--------------------|--------------------|---------------------|
| Basic exemption limit                                  |      | ₹ 2,50,000         | ₹ 3,00,000         | ₹ 5,00,000          |
| Total (taxable) income                                 |      | ₹ 20,00,000        | ₹ 20,00,000        | ₹ 20,00,000         |
| Exemption limit to ₹ 5,00,000                          | 5%   | ₹ 12,500           | ₹ 10,000           | Nil                 |
| ₹ 5,00,001 to ₹ 10,00,000                              | 20%  | ₹ 1,00,000         | ₹ 1,00,000         | ₹ 1,00,000          |
| Above ₹ 10,00,000                                      | 30%  | ₹ 3,00,000         | ₹ 3,00,000         | ₹ 3,00,000          |
| <b>Tax before rebate</b>                               |      | <b>₹ 4,12,500</b>  | <b>₹ 4,10,000</b>  | <b>₹ 4,00,000</b>   |
| Less: Rebate u/s 87A (total income exceeds ₹ 5,00,000) |      | Not allowed        | Not allowed        | Not allowed         |
| <b>Tax after rebate</b>                                |      | <b>₹ 4,12,500</b>  | <b>₹ 4,10,000</b>  | <b>₹ 4,00,000</b>   |
| Add: Health & Education Cess                           | 4%   | ₹ 16,500           | ₹ 16,400           | ₹ 16,000            |
| <b>Tax liability</b>                                   |      | <b>₹ 4,29,000</b>  | <b>₹ 4,26,400</b>  | <b>₹ 4,16,000</b>   |

### Computation of tax liability — New (default) tax regime u/s 115BAC

| Particulars                                             | Rate | Ramesh<br>50 years | Suresh<br>65 years | Lakshmi<br>82 years |
|---------------------------------------------------------|------|--------------------|--------------------|---------------------|
| Basic exemption limit                                   |      | ₹ 4,00,000         | ₹ 4,00,000         | ₹ 4,00,000          |
| Total (taxable) income                                  |      | ₹ 20,00,000        | ₹ 20,00,000        | ₹ 20,00,000         |
| ₹ 4,00,001 to ₹ 8,00,000                                | 5%   | ₹ 20,000           | ₹ 20,000           | ₹ 20,000            |
| ₹ 8,00,001 to ₹ 12,00,000                               | 10%  | ₹ 40,000           | ₹ 40,000           | ₹ 40,000            |
| ₹ 12,00,001 to ₹ 16,00,000                              | 15%  | ₹ 60,000           | ₹ 60,000           | ₹ 60,000            |
| ₹ 16,00,001 to ₹ 20,00,000                              | 20%  | ₹ 80,000           | ₹ 80,000           | ₹ 80,000            |
| <b>Tax before rebate</b>                                |      | <b>₹ 2,00,000</b>  | <b>₹ 2,00,000</b>  | <b>₹ 2,00,000</b>   |
| Less: Rebate u/s 87A (total income exceeds ₹ 12,00,000) |      | Not allowed        | Not allowed        | Not allowed         |
| <b>Tax after rebate</b>                                 |      | <b>₹ 2,00,000</b>  | <b>₹ 2,00,000</b>  | <b>₹ 2,00,000</b>   |
| Add: Health & Education Cess                            | 4%   | ₹ 8,000            | ₹ 8,000            | ₹ 8,000             |
| <b>Tax liability</b>                                    |      | <b>₹ 2,08,000</b>  | <b>₹ 2,08,000</b>  | <b>₹ 2,08,000</b>   |

### Comparison — which regime is beneficial?

| Assessee           | Old (optional) regime | New (default) regime | Saving under default regime |
|--------------------|-----------------------|----------------------|-----------------------------|
| Ramesh — 50 years  | ₹ 4,29,000            | <b>₹ 2,08,000</b>    | ₹ 2,21,000                  |
| Suresh — 65 years  | ₹ 4,26,400            | <b>₹ 2,08,000</b>    | ₹ 2,18,400                  |
| Lakshmi — 82 years | ₹ 4,16,000            | <b>₹ 2,08,000</b>    | ₹ 2,08,000                  |

#### POINTS TO NOTE

- At ₹ 20,00,000 the old regime charges 30% on everything above ₹ 10,00,000, whereas the default regime still has three lower slabs (10%, 15% and 20%) to work through. This is why the default regime is dramatically cheaper here.
- Under the old regime the age of the assessee changes the liability only to the extent of the tax saved on the higher exemption slab — a maximum difference of ₹ 13,000 (including cess) between Ramesh and Lakshmi.
- No rebate u/s 87A is available under either regime: total income exceeds ₹ 5,00,000 (old) and ₹ 12,00,000 (default).
- Under the default regime the liability is identical (₹ 2,08,000) for all three, irrespective of age.

### QUESTION 3

Odd Semester (Academic Year 2023-24) · Q. 4, Set-2

A is a resident **super senior citizen**, B is a resident **senior citizen** and C is a resident individual **below 60 years** of age. Their total (taxable) incomes for the tax year 2026-27 are ₹ 7,00,000, ₹ 18,00,000 and ₹ 36,00,000 respectively. Compute the tax liability of each of them under the old tax rates regime and the new tax rates regime.

#### Computation of tax liability — Old (optional) tax regime

| Particulars                                                         | Rate | A<br>super senior | B<br>senior       | C<br>non-senior   |
|---------------------------------------------------------------------|------|-------------------|-------------------|-------------------|
| Basic exemption limit                                               |      | ₹ 5,00,000        | ₹ 3,00,000        | ₹ 2,50,000        |
| Total (taxable) income                                              |      | ₹ 7,00,000        | ₹ 18,00,000       | ₹ 36,00,000       |

| Total (taxable) income                                               |      | ₹ 7,00,000        | ₹ 18,00,000       | ₹ 36,00,000       |
| ₹ 4,00,001 to ₹ 8,00,000                                             | 5%   | ₹ 15,000          | ₹ 20,000          | ₹ 20,000          |
| ₹ 8,00,001 to ₹ 12,00,000                                            | 10%  | —                 | ₹ 40,000          | ₹ 40,000          |
| ₹ 12,00,001 to ₹ 16,00,000                                           | 15%  | —                 | ₹ 60,000          | ₹ 60,000          |
| ₹ 16,00,001 to ₹ 20,00,000                                           | 20%  | —                 | ₹ 40,000          | ₹ 80,000          |
| ₹ 20,00,001 to ₹ 24,00,000                                           | 25%  | —                 | —                 | ₹ 1,00,000        |
| Above ₹ 24,00,000                                                    | 30%  | —                 | —                 | ₹ 3,60,000        |
| <b>Tax before rebate</b>                                             |      | <b>₹ 15,000</b>   | <b>₹ 1,60,000</b> | <b>₹ 6,60,000</b> |
| Less: Rebate u/s 87A (allowed only where total income ≤ ₹ 12,00,000) |      | ₹ (15,000)        | Not allowed       | Not allowed       |
| <b>Tax after rebate</b>                                              |      | <b>Nil</b>        | <b>₹ 1,60,000</b> | <b>₹ 6,60,000</b> |
| Add: Surcharge (nil — income below ₹ 50,00,000)                      |      | Nil               | Nil               | Nil               |
| Add: Health & Education Cess                                         | 4%   | Nil               | ₹ 6,400           | ₹ 26,400          |
| <b>Tax liability</b>                                                 |      | <b>NIL</b>        | <b>₹ 1,66,400</b> | <b>₹ 6,86,400</b> |

#### Comparison — which regime is beneficial?

| Assessee                     | Old (optional) regime | New (default) regime | Saving under default regime |
|------------------------------|-----------------------|----------------------|-----------------------------|
| A — super senior, ₹ 7,00,000 | ₹ 41,600              | <b>NIL</b>           | ₹ 41,600                    |
| B — senior, ₹ 18,00,000      | ₹ 3,64,000            | <b>₹ 1,66,400</b>    | ₹ 1,97,600                  |
| C — non-senior, ₹ 36,00,000  | ₹ 9,28,200            | <b>₹ 6,86,400</b>    | ₹ 2,41,800                  |

#### POINTS TO NOTE

- **A is the striking case.** Even though he enjoys the highest exemption limit of ₹ 5,00,000 under the old regime, he still pays ₹ 41,600 there, because the rebate u/s 87A is confined to a total income of ₹ 5,00,000. Under the default regime the rebate ceiling is ₹ 12,00,000, so his tax falls to nil.
- **No surcharge** arises in any case: surcharge begins only where total income exceeds ₹ 50,00,000. C's income of ₹ 36,00,000 is well below that threshold — a common error is to apply 10% surcharge here.
- For C, the top slab rate is 30% under both regimes, yet the default regime is still cheaper by ₹ 2,41,800 because the 30% rate begins only above ₹ 24,00,000 instead of ₹ 10,00,000.

## QUESTION 4

Common Paper · Semester-I (Academic Year 2024-25) · Q. 3

From the following particulars relating to **Ms R**, a salaried employee, compute her total tax liability under the old tax regime and the new tax regime for the tax year 2026-27:

|                                                        |             |
|--------------------------------------------------------|-------------|
| Gross Salary                                           | ₹ 15,00,000 |
| Interest on savings bank account                       | ₹ 15,000    |
| Contribution to Provident Fund                         | ₹ 1,50,000  |
| Premium paid for health insurance policy of her family | ₹ 25,000    |

Section numbers in this solution are those of the Income-tax Act, 2025.

### Old (optional) tax regime — option u/s 202(4)

| Particulars                                               | Amount             |
|-----------------------------------------------------------|--------------------|
| <b>Salaries</b>                                           |                    |
| Gross salary                                              | ₹ 15,00,000        |
| Less: Standard deduction u/s 19(1) [Table Sl. No. 2]      | ₹ (50,000)         |
| <b>Income under the head 'Salaries'</b>                   | <b>₹ 14,50,000</b> |
| <b>Income from other sources</b>                          |                    |
| Interest on savings bank account                          | ₹ 15,000           |
| <b>Gross Total Income</b>                                 | <b>₹ 14,65,000</b> |
| <b>Less: Deductions under Chapter VIII</b>                |                    |
| u/s 123 — contribution to provident fund (max ₹ 1,50,000) | ₹ 1,50,000         |
| u/s 126 — health insurance premium for family             | ₹ 25,000           |
| u/s 153 — savings bank interest (max ₹ 10,000)            | ₹ 10,000           |
| <b>Total deductions</b>                                   | <b>₹ 1,85,000</b>  |
| <b>Total Income</b>                                       | <b>₹ 12,80,000</b> |
| <b>Tax on total income</b>                                |                    |
| ₹ 2,50,001 to ₹ 5,00,000 @ 5%                             | ₹ 12,500           |
| ₹ 5,00,001 to ₹ 10,00,000 @ 20%                           | ₹ 1,00,000         |
| ₹ 10,00,001 to ₹ 12,80,000 @ 30%                          | ₹ 84,000           |
| <b>Tax before rebate</b>                                  | <b>₹ 1,96,500</b>  |
| Less: Rebate u/s 156                                      | Not allowed        |
| Add: Health & Education Cess @ 4%                         | ₹ 7,860            |
| <b>Tax payable (rounded off u/s 516)</b>                  | <b>₹ 2,04,360</b>  |

### New (default) tax regime u/s 202

| Particulars                                          | Amount             |
|------------------------------------------------------|--------------------|
| <b>Salaries</b>                                      |                    |
| Gross salary                                         | ₹ 15,00,000        |
| Less: Standard deduction u/s 19(1) [Table Sl. No. 2] | ₹ (75,000)         |
| <b>Income under the head 'Salaries'</b>              | <b>₹ 14,25,000</b> |
| <b>Income from other sources</b>                     |                    |
| Interest on savings bank account                     | ₹ 15,000           |
| <b>Gross Total Income</b>                            | <b>₹ 14,40,000</b> |
| <b>Less: Deductions under Chapter VIII</b>           |                    |
| s. 123 / 126 / 153 (not available under this regime) | Not allowed        |
| <b>Total deductions</b>                              | <b>Nil</b>         |
| <b>Total Income</b>                                  | <b>₹ 14,40,000</b> |
| <b>Tax on total income</b>                           |                    |
| ₹ 4,00,001 to ₹ 8,00,000 @ 5%                        | ₹ 20,000           |
| ₹ 8,00,001 to ₹ 12,00,000 @ 10%                      | ₹ 40,000           |
| ₹ 12,00,001 to ₹ 14,40,000 @ 15%                     | ₹ 36,000           |
| <b>Tax before rebate</b>                             | <b>₹ 96,000</b>    |
| Less: Rebate u/s 156                                 | Not allowed        |
| Add: Health & Education Cess @ 4%                    | ₹ 3,840            |
| <b>Tax payable (rounded off u/s 516)</b>             | <b>₹ 99,840</b>    |

### Comparison — which regime is beneficial?

| Assessee | Old (optional) regime | New (default) regime | Saving under default regime |
|----------|-----------------------|----------------------|-----------------------------|
| Ms R     | ₹ 2,04,360            | <b>₹ 99,840</b>      | ₹ 1,04,520                  |

#### POINTS TO NOTE

- The default regime wins by ₹ 1,04,520 despite Ms R forgoing deductions of ₹ 1,85,000. The higher standard deduction of ₹ 75,000 and the far wider slabs more than make up for the lost Chapter VIII deductions.
- Deduction u/s 153 is restricted to ₹ 10,000, not the full ₹ 15,000 of savings bank interest earned. The balance ₹ 5,000 remains taxable.
- Deduction u/s 126 of ₹ 25,000 is within the ceiling for a family where no member is a senior citizen.
- Under the default regime the savings bank interest of ₹ 15,000 is taxed in full — s. 153 is not available.

## QUESTION 5

Common Paper · Semester-I (Academic Year 2024-25) · Q. 2

**Ms Priya**, aged 32 years and resident in India, earns a salary of ₹ 6,50,000 and makes an investment in PPF of ₹ 1,50,000. Calculate her tax liability under the new tax rates regime for the tax year 2026-27. (Solved under both regimes for comparison.) Section numbers in this solution are those of the Income-tax Act, 2025.

### Old (optional) tax regime — option u/s 202(4)

| Particulars                                          | Amount            |
|------------------------------------------------------|-------------------|
| <b>Salaries</b>                                      |                   |
| Gross salary                                         | ₹ 6,50,000        |
| Less: Standard deduction u/s 19(1) [Table Sl. No. 2] | ₹ (50,000)        |
| <b>Gross Total Income</b>                            | <b>₹ 6,00,000</b> |
| <b>Less: Deductions under Chapter VIII</b>           |                   |
| u/s 123 — investment in PPF (max ₹ 1,50,000)         | ₹ 1,50,000        |
| <b>Total Income</b>                                  | <b>₹ 4,50,000</b> |
| <b>Tax on total income</b>                           |                   |
| ₹ 2,50,001 to ₹ 4,50,000 @ 5%                        | ₹ 10,000          |
| Less: Rebate u/s 156 (total income ≤ ₹ 5,00,000)     | ₹ (10,000)        |
| Add: Health & Education Cess @ 4%                    | Nil               |
| <b>Tax payable</b>                                   | <b>NIL</b>        |

### New (default) tax regime u/s 202

| Particulars                                          | Amount            |
|------------------------------------------------------|-------------------|
| <b>Salaries</b>                                      |                   |
| Gross salary                                         | ₹ 6,50,000        |
| Less: Standard deduction u/s 19(1) [Table Sl. No. 2] | ₹ (75,000)        |
| <b>Gross Total Income</b>                            | <b>₹ 5,75,000</b> |
| <b>Less: Deductions under Chapter VIII</b>           |                   |
| 123 — PPF (not available under this regime)          | Not allowed       |
| <b>Total Income</b>                                  | <b>₹ 5,75,000</b> |
| <b>Tax on total income</b>                           |                   |
| ₹ 4,00,001 to ₹ 5,75,000 @ 5%                        | ₹ 8,750           |
| Less: Rebate u/s 156 (total income ≤ ₹ 12,00,000)    | ₹ (8,750)         |
| Add: Health & Education Cess @ 4%                    | Nil               |
| <b>Tax payable</b>                                   | <b>NIL</b>        |

### Comparison — which regime is beneficial?

| Assessee | Old (optional) regime | New (default) regime | Saving under default regime |
|----------|-----------------------|----------------------|-----------------------------|
| Ms Priya | NIL                   | <b>NIL</b>           | —                           |

#### POINTS TO NOTE

- The tax liability is **nil under both regimes**, so the arithmetic alone does not settle the choice.
- The default regime is nevertheless better for her: she reaches nil tax *without* having to lock ₹ 1,50,000 away in PPF for 15 years. Under the old regime the nil liability is bought at the cost of that lock-in.
- Under the default regime she would continue to pay no tax until her gross salary reaches ₹ 12,75,000 (₹ 12,75,000 – ₹ 75,000 standard deduction = ₹ 12,00,000, the rebate ceiling).
- This is the core **tax-planning** lesson of the unit: a deduction is worth claiming only if the tax it saves exceeds the cost of the commitment it demands.

## QUESTION 6

Common Paper · Semester-III (Academic Year 2024-25) · Q. 4

**Mr Raghav**, aged 26 years and resident in India, has income of ₹ 4,40,000 comprising salary income of ₹ 4,00,000 and interest on fixed deposits of ₹ 40,000. Compute his tax liability for the tax year 2026-27. *Section numbers in this solution are those of the Income-tax Act, 2025.*

### Old (optional) tax regime — option u/s 202(4)

| Particulars                                                       | Amount            |
|-------------------------------------------------------------------|-------------------|
| <b>Salaries</b>                                                   |                   |
| Gross salary                                                      | ₹ 4,00,000        |
| Less: Standard deduction u/s 19(1) [Table Sl. No. 2]              | ₹ (50,000)        |
| <b>Income under the head 'Salaries'</b>                           | <b>₹ 3,50,000</b> |
| <b>Income from other sources</b>                                  |                   |
| Interest on fixed deposits                                        | ₹ 40,000          |
| <b>Gross Total Income</b>                                         | <b>₹ 3,90,000</b> |
| <b>Less: Deductions under Chapter VIII</b>                        |                   |
| 153 (covers interest on a savings account only — not FD interest) | Nil               |
| <b>Total Income</b>                                               | <b>₹ 3,90,000</b> |
| <b>Tax on total income</b>                                        |                   |
| ₹ 2,50,001 to ₹ 3,90,000 @ 5%                                     | ₹ 7,000           |
| Less: Rebate u/s 156 (total income ≤ ₹ 5,00,000)                  | ₹ (7,000)         |
| Add: Health & Education Cess @ 4%                                 | Nil               |
| <b>Tax payable</b>                                                | <b>NIL</b>        |

### New (default) tax regime u/s 202

| Particulars                                                          | Amount            |
|----------------------------------------------------------------------|-------------------|
| <b>Salaries</b>                                                      |                   |
| Gross salary                                                         | ₹ 4,00,000        |
| Less: Standard deduction u/s 19(1) [Table Sl. No. 2]                 | ₹ (75,000)        |
| <b>Income under the head 'Salaries'</b>                              | <b>₹ 3,25,000</b> |
| <b>Income from other sources</b>                                     |                   |
| Interest on fixed deposits                                           | ₹ 40,000          |
| <b>Gross Total Income</b>                                            | <b>₹ 3,65,000</b> |
| <b>Less: Deductions under Chapter VIII</b>                           |                   |
| Not available under this regime                                      | Nil               |
| <b>Total Income</b>                                                  | <b>₹ 3,65,000</b> |
| <b>Tax on total income</b>                                           |                   |
| Total income does not exceed the basic exemption limit of ₹ 4,00,000 | Nil               |
| Rebate u/s 156                                                       | Not required      |
| Add: Health & Education Cess @ 4%                                    | Nil               |
| <b>Tax payable</b>                                                   | <b>NIL</b>        |

### Comparison — which regime is beneficial?

| Assessee  | Old (optional) regime | New (default) regime | Saving under default regime |
|-----------|-----------------------|----------------------|-----------------------------|
| Mr Raghav | NIL                   | NIL                  | —                           |

#### POINTS TO NOTE

- **Nil under both regimes — but for different reasons.** Under the old regime tax of ₹ 7,000 arises and is then extinguished by the rebate u/s 156. Under the default regime the total income of ₹ 3,65,000 is below the basic exemption limit of ₹ 4,00,000, so no tax arises at all and no rebate is needed.
- **Deduction u/s 153 is not available on fixed deposit interest.** It covers interest on deposits in a *savings account* only. (For a resident senior citizen, s. 153(2)(b) would have allowed up to ₹ 50,000 on all deposits including time deposits — but Mr Raghav is 26.)
- Standard deduction is limited to the amount of salary; here salary comfortably exceeds it.
- **No tax is deducted at source here either.** Tax is deducted on bank interest only where it exceeds ₹ 50,000 in the tax year (₹ 1,00,000 for a resident senior citizen) — s. 393(1), Table Sl. No. 5(ii). Mr Raghav's ₹ 40,000 is below that. Had it crossed the threshold, he could have furnished a declaration in **Form No. 121** under s. 393(6) — the provision that replaces the old Form 15G / 15H.
